Drop-In Floor Box

The Carlton Drop-In Floor Box with Brass Cover combines many of the same features in our existing Floor Box line with the strength, durability and style necessary to accommodate today's residential electrical/telecommunication needs.

The Carlton Drop-In Floor Box is the fastest and easiest way for contractors to put a floor socket anywhere they need it! It's designed to accommodate high and low voltage applications and comes complete with everything needed for installation - Floor Box, Brass Cover, Hole Saw, Wired Receptacle, Two-Hole Low Voltage Plate, Blank Plate, Mounting Screws, and Wire Nuts.

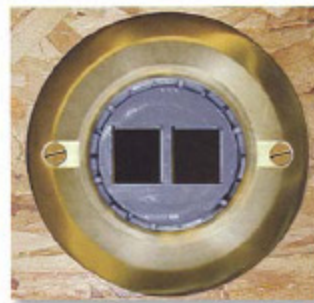

Features:

- Single hole installation
- Solid brass cover has a light lacquer finish to resist wear - Ideal for high traffic areas
- Accommodates high and low voltage applications
- Eliminates the need for extension cords
- Superior aesthetics - Ideal for home offices and entertainment rooms
- UL Listed Nonmetallic Outlet Box 655A

Note: The Drop-In Floor Box is available with or without a hole saw.

- Includes single gang grounded receptacle, low voltage telephone/cable plate (data jacks not included), and blank plate for custom installations

Installed:

Drop by the Gilroy branch Thursday, July 14 to meet Jeff for a Bar-B-Que lunch and to see this new product!
