It's a... **FLUKE**®

330 Series Clamp Meters

- Three year warranty
- Small body and jaws fit perfectly in your hand and into tight places
- Handy 'Display Hold' button keeps measurements on the display
- Meter controls are positioned so current measurements can be done with one hand (index finger on clamp opening lever and thumb on rotary switch)
- Large, backlit display (on most models) is easy-to-see
- In-rush current function (on most models) for measuring starting current for motors, lighting, etc.
- Auto shut-off maximizes battery life so the meter works when you need it
- Improved low current measurement accuracy from new microprocessor technology
- Five different models to meet your exact needs

Fluke Introduces the NEW 87V Digital Multimeter

- Unique function for accurate voltage and frequency measurements on adjustable speed motor drives and other electrically noisy equipment
- Built-in thermometer conveniently allows you to take temperature readings without having to carry a separate instrument
- Optional magnetic hanger for easy set-up and viewing while freeing your hands for other tasks
- Large digit display with bright, two-level backlight makes the 87V significantly easier to read than older models

Fluke Introduces the NEW 63 Infrared Thermometer

- Measures broad range of temperatures; -32° to 535°C (25° to 999°F)
- Enhanced optics allow you to measure small objects from far away
- Laser guided sighting system for easy targeting with 1% accuracy

T3 Voltage and Continuity Tester

- LED voltage indicators
- Seven key voltage levels
- Automatically switches to continuity beeper or ac/dc voltage
- Heavy duty test leads

T5 Voltage, Continuity and Current Testers

- Available in 600 V and 1000 V models
- Digital display
- OpenJaw™ current measurement
- Rotary switch selects volts, amps and ohms functions
- Heavy duty test leads

Come in March 17th for muffins and coffee with Eddie and check to see if your meter needs to be calibrated.
